Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

Scope of Review
We conducted our review in accordance with International Standard on Review Engagements 2410, *"Review of Interim Financial Information Performed by the Independent Auditor of the Entity"*. A review of interim condensed consolidated financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with IAS 34.

2 BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (continued)

2.2. New standards, interpretations and amendments adopted by the Group

The accounting policies used in the preparation of the interim condensed consolidated financial information are consistent with those used in the preparation of the annual consolidated financial statements for the year ended 31 December 2017, except for the change in accounting policy detailed below for adoption of IFRS 15 – Revenue from Contracts with Customers and IFRS 9 – Financial Instruments from 1 January 2018.

IFRS 15 – Revenue from Contracts with Customers

IFRS 15 was issued in May 2014 and is effective for annual periods commencing on or after 1 January 2018. IFRS 15 outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue guidance, which is found currently across several Standards and Interpretations within IFRS. It established a new five-step model that will apply to revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The Group's adoption of IFRS 15 under modified retrospective method had no material impact on this interim condensed consolidated financial information of the Group.

IFRS 9 Financial Instruments

The Group has adopted IFRS 9 effective from 1 January 2018. IFRS 9 brings together the requirements for recognising and measuring financial assets and financial liabilities, impairment of financial assets and hedge accounting. This standard replaces IAS 39 Financial Instruments: Recognition and Measurement.

Details of these new requirement as well as their impact on the Group's interim condensed consolidated financial information are described below. The Group has not entered into any derivative transactions during the year and not have any outstanding derivative as at date of initial application, hence no related disclosure are included below.

- As per the transition requirements, the IFRS 9 has been applied retrospectively. However, the management has not considered to restate the comparatives. Hence, the date of initial application has been determined as 1 January 2018. Therefore, difference arising from classification and measurement of financial assets resulting from adoption of IFRS 9 are recognised in cumulative change in fair value reserves and accumulated losses as at 1 January 2018. Accordingly, the information presented in the consolidated financial information as at 31 December 2017 and the interim condensed consolidated financial statements as at 30 June 2017 does not reflect the requirements of IFRS 9 and therefore is not comparable to information presented in the interim condensed consolidated financial information as at 30 June 2018 under IFRS 9.

- The following assessments have been made on the basis of facts and circumstances that existed at the date of initial application:

  - The determination of the business model within which a financial asset is held;
  - Revocation of previous designation of financial assets available for sale (AFS) and re-designation as financial assets at fair value through other comprehensive income (FVOCI).

The Group has reviewed and assessed the existing financial assets as at 1 January 2018 based on the facts and circumstances that existed at that date and concluded that the initial application of IFRS 9 has had the following impact on the Group's financial assets in regards to their classification and measurement as given below.

Classification and measurement of financial assets

Under IFRS 9, debt financial instruments are subsequently measured at fair value through profit or loss (FVPL), Amortised Cost (AC), or FVOCI. The classification is based on two criteria: the Group's business model for managing the assets; and whether the instruments' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding (the 'SPPI criterion').

- Financial assets such as account receivables and other debit balances and cash and cash equivalents that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding, are subsequently measured at amortised cost;

2 BASIS OF PREPARATION AND CHANGES TO THE GROUP'S ACCOUNTING POLICIES (continued)

2.2. New standards, interpretations and amendments adopted by the Group (continued)

Classification and measurement of financial assets (continued)

- Financial assets at FVPL comprise equity instruments which the Group had not irrevocably elected, at initial recognition or transition, to classify at FVOCI. This category would also include debt instruments whose cash flow characteristics fail the SPPI criterion or are not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell.
- Financial assets such as equity investments are subsequently measured at fair value through other comprehensive income (FVOCI) as the Group has made irrevocable election/designation at initial application date.

Impairment of financial assets
As at 1 January 2018, the Group reviewed and assessed the Group's account receivables and other debit balances for impairment using reasonable and supportable information that is available without undue cost or effort in accordance with the requirements of IFRS 9 to determine ECL as at 1 January 2018 and 30 June 2018. The Group will monitor the reasonableness of the information, assumptions, estimates and judgements used for determining ECL and will update the ECL for latest and enhanced information that may be available without undue cost or effort at every reporting period end.

No significant changes were noted in financial liabilities as the Group classified all its financial liabilities at amortised under IAS 39 and the same classification has been carried forward under IFRS 9 based on their business model.

Impact of adopting IFRS 9
The impact of this change in accounting policy as at 1 January 2018 resulted in an increase accumulated losses by KD 181,717 and decrease non-controlling interests by KD 101,111 as follows:

	Accumulated losses KD	*Non-controlling interests KD*
Balance under IAS 39 as at 31 December 2017	(45,884,980)	4,849,545
Impact on recognition of ECL on trade receivables:		
ECL under IFRS 9 for trade receivables at amortised cost	(181,717)	(101,111)
Total transition adjustment on adoption of IFRS 9 as at 1 January 2018	**(181,717)**	**(101,111)**
Balance under IFRS 9 on date of initial application as 1 January 2018	**(46,066,697)**	**4,748,434**

2.2. New standards, interpretations and amendments adopted by the Group (continued)

Classification of financial assets on the date of initial application of IFRS 9

The table below illustrates the classification and measurement of financial assets under IFRS 9 and IAS 39:

1 January 2018	*Original classification under IAS 39*	*New classification under IFRS 9*	*Original carrying amount under IAS 39 KD*	*Remeasurement ECL KD*	*New carrying amount under IFRS 9 KD*
Financial assets:					
Equity securities	*AFS*	*FVOCI**	14,343,269	-	14,343,269
Equity securities	*FVPL*	*FVPL*	6,617,679	-	6,617,679
Accounts receivable and other debit balances	*Amortised cost*	*Amortised cost*	9,120,092	(282,828)	8,837,264
Cash and cash equivalents	*Amortised cost*	*Amortised cost*	1,347,763	-	1,347,763
Total financial assets			31,428,803	(282,828)	31,145,975

* Based on facts and circumstances that existed at the date of initial application, management determined that investment in equity instruments were not held for purposes of trading and were held for medium to long term strategic purposes. Accordingly, management have elected to designate these investments in equity instruments as FVOCI as they believe that recognising short term fluctuations in the fair value of investments in profit or loss would not be consistent with the Group's strategy of holding these investments for medium to long purposes and realising their performance potential in the long run.

7 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Financial instruments comprise of financial assets and financial liabilities.

Financial assets consist of financial assets at fair value through other comprehensive income, financial assets at fair value through profit or loss, account receivables and other debit balances and cash and cash equivalents.

Financial liabilities consist of account payables and other liabilities and murabaha payables.

7 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)

Fair value hierarchy

All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole, as follows:-

Level 1: Quoted (unadjusted) market prices in active markets for identical assets or liabilities;

Level 2: Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; and

Level 3: Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Financial instruments

The following table provides the fair value measurement hierarchy of the Group's financial instruments measured at fair value:

30 June 2018	*Level 1 KD*	*Level 2 KD*	*Level 3 KD*	***Total KD***

	348,422	7,430,795	7,779,217

The above table does not include certain equity securities amounting to KD 14,000,000 and KD 14,000,000 as at 31 December 2017 and 30 June 2017, respectively, that do not have a quoted price in active markets and whose fair value cannot be reliably measured.

7 FAIR VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS (continued)

The management assessed that the fair values of cash and cash equivalents, accounts receivables, accounts payable and other liabilities approximate their carrying amounts largely due to the short term maturities of these instruments.

There were no transfers between levels within the fair value hierarchy during the period ended 30 June 2018.

Description of significant unobservable inputs to valuation of financial assets:
Investment in managed fund have been valued based on Net Asset Value (NAV) provided by the custodian of the fund. The information relating to valuation techniques and significant unobservable inputs to valuation to compute the sensitivity of the fair value measurement to changes in unobservable inputs is not available.

8 HYPERINFLATION ADJUSTMENTS

IAS 29 requires that financial statements prepared in the currency of a hyperinflationary economy be stated in terms of a measuring unit current at the statement of financial position date and that corresponding figures for previous periods be stated in the same terms to the latest statement of financial position date. This has been applied in Higleig, a subsidiary, and the restatement has been calculated by means of conversion factors derived from the Consumer Price Index (CPI) provided by the Central Bank of Sudan (CBOS) or International Monetary Fund (IMF). The conversion factors used to restate the financial statements of the subsidiary are, as follows:

	Index	**Conversion Factor**
30 June 2018	**1,125.100**	**1.254**
31 March 2018	861.500	1.112
31 December 2017	832.926	1.106
31 December 2016	617.400	1.101
31 December 2015	521.800	1.081
31 December 2014	428.300	1.151
31 December 2013	314.826	1.198
31 December 2012	262.793	1.444
31 December 2011	181.944	1.189
31 December 2010	153.043	1.000

The above mentioned restatement has been accounted for as follows:

i. Financial statements prepared in the currency of a hyperinflationary economy are stated after applying the measuring unit current at the statement of financial position date and corresponding figures for the previous period are stated on the same basis. Monetary assets and liabilities are not restated because they are already expressed in terms of the monetary unit current at the statement of financial position date. Monetary items are money held and items to be recovered or paid in money;

ii. Non-monetary assets and liabilities that are not carried at amounts current at the statement of financial position date and components of shareholders' equity are restated by applying the relevant conversion factors;

iii. Comparative financial statements are restated using general inflation indices in terms of the measuring unit current at the statement of financial position date. Investment property and available for sale investments are indexed based on recent fair valuations. The resulting adjustments are taken directly to the interim condensed consolidated statement of changes in equity;

iv. All items in the income statement are restated by applying the relevant quarterly average or year-end conversion factors; and

v. The effect on the net monetary position of the Group is included in the interim condensed consolidated statement of profit or loss as a monetary gain or loss from hyperinflation.

8 HYPERINFLATION ADJUSTMENTS (continued)

The application of the IAS 29 restatement procedures has the effect of amending certain accounting policies at the subsidiary's level which are used in the preparation of the financial statements under the historical cost convention.
