#### Introduction

We have reviewed the accompanying 30 September 2016 condensed consolidated interim financial information of The Energy House Holding Company K.S.C.P. ("the Company") and subsidiaries (together "the Group"), which comprises the interim consolidated statement of financial position as at 30 September 2016, the interim consolidated statements of profit or loss and other comprehensive income for the three and nine month periods ended 30 September 2016, the interim consolidated statements of cash flows and changes in equity for the nine month period then ended, and notes to the condensed consolidated interim financial information. The Company's management is responsible for the preparation and presentation of this condensed consolidated interim financial information in accordance with IAS 34, *Interim Financial Reporting*. Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

#### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information as at 30 September 2016 is not prepared, in all material respects, in accordance with IAS 34, *Interim Financial Reporting*.

#### Report on Review of Other Legal and Regulatory Requirements

Furthermore, based on our review, the condensed consolidated interim financial information is in agreement with the accounting records. We further report that nothing has come to our attention indicating any contravention during the nine month period ended 30 September 2016 of the Companies Law No. 1 of 2016, the Executive Regulations as amended, the Company's Memorandum of Incorporation and Articles of Association, that might have had material effect on the Company's activities or on its financial position.

#### 2. Basis of preparation

This condensed consolidated interim financial information has been prepared in accordance with International Accounting Standard 34, *Interim Financial Reporting*.

Selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the consolidated financial position and performance of the Group, since the last annual consolidated financial statements as at and for the year ended 31 December 2015. This condensed consolidated interim financial information does not include all of the information required for full annual consolidated financial statements prepared in accordance with International Financial Reporting Standards (IFRS).

Operating results for the nine month period ended 30 September 2016 are not necessarily indicative of the results that may be expected for the year ending 31 December 2016.

These consolidated financial statements are presented in Kuwaiti Dinars ("KD"), which is also the Company's functional and presentation currency.

#### 3. Significant accounting policies

The accounting policies used in the preparation of this condensed consolidated interim financial information are consistent with those used in the preparation of the annual audited consolidated financial statements for the year ended 31 December 2015, except for the adoption of the amendments and annual improvements to IFRSs, relevant to the Group which are effective for annual reporting period starting from 1 January 2016 and did not result in any material impact on the accounting policies, financial position or performance of the Group.

#### Standards issued but not yet effective

Standards issued but not yet effective during the period ended 30 September 2016 is listed below:

IFRS 16 - Leases

In January 2016, the IASB issued IFRS 16 Leases. The new standard requires lessees to recognise assets and liabilities for most leases on-balance sheet. Lessees applying IFRS 16 will have a single accounting model, with certain exemptions. Lessors applying IFRS 16 will classify leases using the same principle as in IAS 17 and lessor accounting is substantially unchanged.

IFRS 16 is effective for annual periods beginning on or after 1 January 2019. Earlier application is permitted for entities that apply IFRS 15 Revenue from Contracts with Customers at or before the date of initial application of IFRS 16.

The Group intends to adopt this standard when it becomes effective. However, the Group expects no material impact from the adoption on its financial position or performance.

#### 4. Judgements and estimates

The preparation of condensed consolidated interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited consolidated financial statements as at and for the year ended 31 December 2015.

#### 5. Bank balances, cash and wakala deposits

Restricted bank balances represent margin deposits that are held as security against letters of guarantee (note 11).

Wakala deposits with original maturity of more than three months include KD 1,792,678 (31 December 2015: KD 1,800,000 and 30 September 2015: KD 1,800,000) representing margin deposits held as a security against the letters of guarantee (note 11).

#### 6. Related party transactions

Related parties represent major shareholders, Directors and key management personnel of the Group and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Group's management. Transactions between the Company and its subsidiaries which are related parties to the Company have been eliminated on consolidation and are not disclosed in this note. Transactions with related parties are as follows:

#### 9. Fair values of financial assets

#### Valuation techniques and assumptions applied for the purposes of measuring fair value

The fair value of financial instruments traded in active markets (such as trading and available for sale securities) is based on quoted market prices at the financial position date. The quoted market price used for financial assets held by the Group is the current bid price.

The investment in an unquoted fund is carried at net asset value provided by the fund manager.

The fair value of investment property was determined based on the valuation performed as at 31 December 2015 by accredited independent valuator who is the industry specialists in valuing this type of investment property.

#### Fair value measurements recognised in the interim consolidated statement of financial position

The table below analyses the assets carried at fair value. The different levels have been defined as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Investment property	336,935	7,751,287 14,567,341	7,751,287 14,904,276

During the periods ended 30 September 2016, 31 December 2015 and 30 September 2015, there were no transfers between Level 1 and Level 2 fair value measurements.

During the period, based on the available information, a financial asset available for sale was impaired by KD 1,500,000 (30 September 2015: Nil).

At the reporting date, financial assets available for sale with a carrying value of KD 24,426,856 (31 December 2015: KD 25,926,856 and 30 September 2015: KD 31,515,600) are carried at cost less impairment due to the non-availability of quoted market prices or other reliable measures of their fair value.

#### 10. Hyperinflation adjustment

IAS 29 requires that financial statements prepared in the currency of a hyperinflationary economy be stated in terms of a measuring unit current at the statement of financial position date and that corresponding figures for previous periods be stated in the same terms to the latest statement of financial position date. This has been applied in Higleig, a subsidiary, and the restatement has been calculated by means of conversion factors derived from the Consumer Price Index (CPI) provided by the Central Bank of Sudan (CBS). The conversion factors used to restate the financial statements of the subsidiary are as follows:

	Index	Conversion Factor
30 September 2016	536.900	1.040
31 December 2015	521.800	1.081
31 December 2014	428.300	1.151
31 December 2013	314.826	1.198
31 December 2012	262.793	1.444
31 December 2011	181.944	1.189
31 December 2010	153.043	1

The above mentioned restatement has been accounted for as follows:

- i. Financial statements prepared in the currency of a hyperinflationary economy are stated after applying the measuring unit current at statement of financial position date and corresponding figures for the previous period are stated on the same basis. Monetary assets and liabilities are not restated because they are already expressed in terms of the monetary unit current at the statement of financial position date. Monetary items are money held and items to be recovered or paid in money;
- Non-monetary assets and liabilities that are not carried at amounts current at the statement of financial
  position date and components of shareholders' equity are restated by applying the relevant conversion
  factors;
- iii. Comparative financial statements are restated using general inflation indices in terms of the measuring unit current at the statement of financial position date. Investment property and available for sale investments are indexed based on recent fair valuations. The resulting adjustments are taken directly to the consolidated statement of changes in equity;
- iv. All items in the income statement are restated by applying the relevant quarterly average or year-end conversion factors; and
- v. The effect on the net monetary position of the Group is included in the consolidated statement of profit or loss as a monetary gain or loss from hyperinflation.

The application of the IAS 29 restatement procedures has the effect of amending certain accounting policies at the subsidiary's level which are used in the preparation of the financial statements under the historical cost conversion.

The hyperinflation adjustment of KD 199,088 (31 December 2015: KD 2,671,992 and 30 September 2015: KD 922,957) in the books of Higleig, up to 30 September 2016, has been adjusted directly in the interim consolidated statement of changes in equity.
